

Dear Yolanda,

This year, when I recognized that the development of my child deviated from other children, I did not know what to do. It was hard to tell others how I felt, and I prayed for help. Afterwards, I received your book "The Extraordinary Witnesses" and its VCD from a sister in Los Angeles. After reading your little book, I was very impressed. It was really something incredible. When I searched for your information on the web, I could not find "the Louis Program". But I would not give up any opportunity of finding it. Occasionally, I found some books in the virtual library on the web, and I borrowed them from the public library. I was really happy to find that one of the books was written by you. After reading the book, I followed the methods described in it. Having tried for 6 months, my son has a great improvement in learning words. He can read and recognize a-z, 1-10 (Chinese and English). My neighbours were very surprised by his performance, for he is only a child of 22 months old.

Reading your book and attending your course help me a lot in bringing up my son in the future. I can see the patience, effort and never-giving-up diligence from you. They are the power given by God. It is really magical and miraculous that God creates men. There are many difficult situations which seemed impossible to overcome and break through, but I believe that, when we have faith in Him, we will have the strength, and, "You can if you think you can".

Thanks for helping us, the parents, in overcoming the most difficult times.

May God bless your family, and continue to work hard for this program.
