

Don't wish to waste you too much time. Here is what I wish to say:

1. In the first lesson, I could not stop crying.
2. If possible, please send me a copy of the publicity materials next time when you come back to Hong Kong for seminar!
3. Maybe, I still cannot stop crying till the last lesson, but the tears at that time will already be furnished with hope!
4. Lastly, though seemed a bit "old-fashioned", it is necessary to say, "Thank you!"

God blessed with peace
